Subject: Riken Thermofoil Chemical & Disinfectant Resistance - “DT, Matte series”

Test Method: Based on DIN68861

All cleaners and disinfectants used for testing have been approved by the EPA – these products meet the criteria to combat SARS-CoV-2, the novel coronavirus that caused COVID-19. Riken DT, Matte series was tested for compatibility with the list of products below following the guidelines of test method DIN68861. The test results showed little to no color change or surface damage.

Cleaners & Disinfectants:

- Asepticare TB-II
- Bleach 5:1
- Bleach-Rite® disinfecting spray
- Cavicide® surface disinfectant
- Citrace® germicide
- Clorox® germicidal wipes
- Dispatch® spray hospital cleaner disinfectant with bleach
- Fade-A-Dyne® stain remover
- Lysol® spray disinfectant
- PDI® Super Sani-Cloth® germicidal wipes
- PDI Sani-Cloth HB germicidal wipes
- PDI Sani-Cloth Plus germicidal wipes
- SaniZide Plus® germicidal solution
- Virex® II 256 cleaner
- Virox® AHP 5 disinfectant cleaner surface wipes
- Lysol IC
- Oxivir Tb

Cleaning After Disinfection:

To fully remove chemical residue, hand dishwashing soap or multi-surface cleaner and water with a soft cloth or damp sponge is recommended. *After cleaning, rinse area well with clean water, then dry with a clean cloth. Failure to fully remove chemical residue will cause discoloration of the material earlier in the life cycle of the product.*
